Keivan Faghih Niresi

Ph.D. Candidate – EPFL

EPFL ENAC IIC, IMOS, GC A3 445 (Bâtiment GC), Station 18, CH-1015 Lausanne

Education

École Polytechnique Fédérale de Lausanne (EPFL)
Lausanne, CH

Docteur ès Sciences (Ph.D.) in Machine Learning — *Feb. 2023 - Present*

- **Advisor:** Prof. Olga Fink
- **Coursework:** Graph Representations for Biology and Medicine, Frontiers of Deep Learning for Engineers, Image Analysis and Pattern Recognition

National Tsing Hua University (NTHU)
Hsinchu, TW

Master of Science (M.Sc.) in Communications Engineering — *Sep. 2020 - Nov. 2022*

- **Thesis:** *Hyperspectral Image Restoration Framework Based on Robust Untrained Neural Networks*
- **Advisor:** Prof. Chong-Yung Chi
- **Coursework:** Machine Learning, Numerical Optimization, Convex Optimization, Random Processes, Mathematical Methods for Communications, Brain Computer Interfaces, Communications Theory, Analysis and Synthesis of Digital Audio Signals

University of Guilan
Rasht, IR

Bachelor of Science (B.Sc.) in Electrical Engineering — *Sep. 2015 - Sep. 2019*

- **Thesis:** *Comparative Analysis of Modulation Methods in Visible Light Communication Systems*
- **Advisor:** Prof. Gholamreza Baghersalimi
- **Relevant Courses:** Digital Signal Processing, Optical Communications Systems, Digital Communications, Principle of Communications Systems, Numerical Analysis, Linear Algebra, Engineering Probability and Statistics, Antenna and Microwave, Communications Circuits

Research Interests

Signal Processing	Computational sensing/imaging, Inverse problems, Graph signal processing, High-dimensional data analysis
Machine Learning	Graph neural networks, Domain adaptation, Physics-informed learning, Uncertainty quantification
Main Applications	Internet of things, Remote sensing, Smart cities/infrastructures, Digital twins, Environmental informatics

Research Experience

Intelligent Maintenance and Operations Systems (IMOS) Lab. | EPFL
Lausanne, CH

Doctoral Research Assistant (**Supervisor:** Prof. Olga Fink) — *Feb. 2023 - Present*

- Developing **physics-informed graph neural networks** for **computational sensing** and **metrology**.
- Solving **topology/graph inference problems** from sensor data by **graph signal processing** and domain-specific knowledge injection.
- Proposing methods for **unsupervised domain adaptation** on **spatial-temporal graph neural networks** for **multisensor fusion**.

Section of Automation & Control | Aalborg University
Aalborg, DK

Visiting Researcher (**Supervisors:** Prof. Rafal Wisniewski and Prof. Carsten Skovmose Kallesøe) — *May. 2024 - Jun. 2024*

- Collected **pipeline network datasets (multivariate time series)** at the **Smart Water Infrastructures Laboratory (SWIL)**.
- Gained hands-on experience in **intelligent distribution systems modeling** and **smart meters calibration**.

Wireless Communications and Signal Processing (WCSP) Lab. | NTHU
Hsinchu, TW

Research Assistant (**Supervisor:** Prof. Chong-Yung Chi) — *Sep. 2020 - Dec. 2022*

- Proposed **unsupervised** methods based on **robust statistics** and **deep learning** for solving **inverse problems in imaging**.
- Studied **convex optimization** techniques and applications in machine learning, signal processing, and communications systems.

➔ **Published two papers in top-tier signal processing, geoscience, remote sensing, and earth observation journals.**

PranaQ
Taipei City, TW

Machine Learning Research Engineer Intern (**Mentor:** Prof. Hau-Tieng Wu) — *May. 2022 - Aug. 2022*

- Focused on **multi-modal biomedical signal processing** for analyzing **SpO2, blood pressure trends, pulse, and respiration rate**.
- Collaborated with physicians from **Taipei Medical University Hospital** to collect biomedical data, including PPG, ECG, EMG, and EEG.

➔ **Led to performance improvement in sleep tracking; these algorithms are currently integrated into the TipTraQ device.**

Publications

[1] **Keivan Faghih Niresi**, Ismail Nejjar, and Olga Fink
Efficient Unsupervised Domain Adaptation Regression for Spatial-Temporal Air Quality Sensor Fusion
Submitted to Information Fusion, 2024

Unsupervised Hyperspectral Denoising Based on Deep Image Prior and Least Favorable Distribution
IEEE Journal of Selected Topics in Applied Earth Observations and Remote Sensing, 2022

Talks and Workshops

[1] **Graph Neural Networks for Environmental and Infrastructure Sensing**
Federal Institute of Metrology (METAS) Seminar, Bern, Switzerland, 2024

[2] **Integrating Physics in Graph Neural Networks for Interaction Modeling**
Second Workshop on Physics Enhancing Machine Learning in Applied Mechanics, Institute of Physics, London, United Kingdom, 2023

Teaching Experience

École Polytechnique Fédérale de Lausanne (EPFL) *Lausanne, CH*
Teaching Assistant *Feb. 2023 - Present*
- MATH-101 - Analysis I (Fall 2024)
- CIVIL-426 - Machine Learning for Predictive Maintenance Applications (Fall 2024, Fall 2023)
- CIVIL-332 - Data Science for Infrastructure Condition Monitoring (Spring 2024, Spring 2023)

National Tsing Hua University (NTHU) *Hsinchu, TW*
Teaching Assistant *Feb. 2021 - Jun. 2022*
- EE 367000 - Introduction to Convex Optimization (Spring 2022, and Spring 2021)

University of Guilan *Rasht, IR*
Teaching Assistant *Feb. 2018 – Jun. 2019*
- Electrical Circuits I (Spring 2019, Fall 2018, and Spring 2018)

Guest Lecturer
- Introduction to Advanced Design System (ADS) for Communications Circuits

Skills and Expertise

Programming and Scripting Languages:
Python, MATLAB®, LaTeX

Machine Learning, Deep Learning, and Data Science:
PyTorch, PyTorch Geometric (PyG), PyG Temporal, Torch Spatiotemporal, CVXPY, scikit-learn, pandas, NumPy, SciPy, Tensorflow

Computer Vision, Computational Imaging, and Image Processing:
OpenCV, scikit-image, Pyxu, DeepInverse, Kornia, SCICO

Honors and Awards

2020 **Awarded M.Sc. Full Scholarship (Merit-Based)**, *highest award offered to NTHU graduate students*
2019 **Ranked 1st in GPA** *among all undergraduate students of Communications Engineering, University of Guilan, Class of 2015-2019*
2019 **Merit-Based Admission Offer** *for M.Sc. program (University of Guilan) without entrance exam as an exceptional talent (declined)*
2015 **Full Tuition-Waiving Fellowship** *for B.Sc. degree*

Academic Services

Student Supervision (Co-advised with Prof. Olga Fink):
Master's students: Jun Qing (EPFL), Lucas Kuhn (EPFL)

Reviewer:
Mechanical Systems and Signal Processing (2024), Internet of Things (2024), Engineering Applications of Artificial Intelligence (2024), IEEE Sensors Journal (2024, 2023), Signal, Image and Video Processing (2023, 2022)

Conference Organizer:
Intelligent Maintenance Conference (IMC) (2024, 2023)
